

# Accessing the Point in Time Surveys

## Survey123 App

In order to access the survey offline we strongly encourage downloading the Survey123 App on your smartphone or tablet. *Scanning one of the QR codes below will prompt you to download the app.*

ArcGIS Survey123

## Accessing the surveys with the app

Before you begin collecting survey data and while you are connected to the internet, scan the QR code below to open the survey in the app. When the app opens choose the option to ***continue without signing in.***

### [Sheltered Count Survey](#)

### [Unsheltered Count Survey](#)

### [Observational Count Survey](#)

**(Only use if your community has chosen to complete this type of count.)**

Be sure to download the form and access each survey ***while online before*** attempting to collect any data offline.

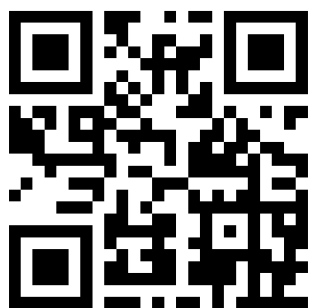

It is always a good idea to have ***paper forms*** on hand for backup!

# Online Access of the Point in Time Survey

## Accessing the surveys on your browser

If you believe you will have reliable access to the internet and would prefer to access the survey each time you need it on your browser, you can use the QR links below.

[Sheltered  
Count Survey](#)

[Unsheltered  
Count Survey](#)

[Observational Count  
Survey](#) (Only use if your  
community has chosen to complete  
this type of count.)

**Note:** Using the app will also save the survey to your phone on the app so you will not have to use the QR code to access it again
